Todo List

Table of contents

1. high

- **[docs]** Create the documentaiton with lots of examples and samples. XML content goes in `src/documentation/content/xdocs.` #
- **[docs]** Remove outpmap.xmap and replace it (if necessary) with resources.xmap) #
- **[xmap]** requesting http://localhost/gallery/lena/ without index.html is not yet matched #
- **[xmap]** Implement the comment.xml feature (merge the xml from the imagedirectory-generator and the comment.xml) #

2. medium

- **[xsl]** I tried to align the left- and right arrows vertically in the table (using valign="middle") but this didn't work. Maybe some of the html gurus can fix this. #
- **[xsl]** what is the required syntax for links and images <a> and <img> or <link> and <figure>, document-v20.dtd seems to allow both? #
- **[xsl]** Implement tool-tip infos #
- **[xsl]** Implement a template facility for the picture page (so you can change the layout, right now everything is hardcoded in gallerypicture.xsl). #

3. low

- **[xmap]** Test other image types other than jpg. #
- **[xsl]** Implement reading of exif data in cocoon imagedirectory-generator #
