

# 1 Link to us

If you find that mod\_perl has helped out your web project and you enjoy coding for mod\_perl, please consider linking back to [perl.apache.org](http://perl.apache.org). As an Open Source project, we don't have funds for advertising, so we have to rely on the word of the mouth and links from our users to gain recognition.

Image	Description	Alternatives
[mod_perl] static logo	<p><b>File name:</b> <i>mod_perl_logo_static.gif</i>  <b>Dimensions:</b> <i>395x85</i>            The official logo, by Michael Demers (mike (at) inteo.com)</p> <p>The SVG version shouldn't be used for linking -- it's provided as a way to modify the original image if you have other requirements. You can then use a tool like Batik to convert the SVG to another format for the web.</p>	<ul style="list-style-type: none"> <li>● Transparent Background (PNG)</li> <li>● White Background (PNG)</li> <li>● Black Background (PNG)</li> <li>● SVG</li> <li>● Animated SVG</li> </ul>
[mod_perl] banner [mod_perl] banner [mod_perl] banner	<p><b>File name:</b> <i>mike_walker.gif, marie_simpson.gif, ashley.gif</i>  <b>Dimensions:</b> <i>468x60</i>            Animated banners contributed by mod_perl users: Mike Walker, Marie Simpson and Ashley.</p>	
Powered by [mod_perl] 64x64	<p><b>File name:</b> <i>button-64x64.gif</i>  <b>Dimensions:</b> <i>64x64</i>            Square button based on logo.</p>	<ul style="list-style-type: none"> <li>● PNG</li> <li>● Without black border</li> </ul>
Powered by [mod_perl] 110x30 Powered by [mod_perl] 64x28	<p><b>File name:</b> <i>button-110x30.gif, button-text-64x28.gif</i>  <b>Dimensions:</b> <i>110x30, 64x28</i>            Buttons, for easy linking, based on the logo.</p>	<ul style="list-style-type: none"> <li>● 110x30 button (PNG)</li> <li>● 64x28 button (PNG)</li> <li>● 110x30, without black border</li> <li>● 64x28, without black border</li> </ul>
[mod_perl] button	<p><b>File name:</b> <i>apache-mod_perl.gif</i>  <b>Dimensions:</b> <i>90x30</i>            mod_perl button by Juergen Specht.</p>	
[mod_perl] button	<p><b>File name:</b> <i>apache-mod_perl2.gif</i>  <b>Dimensions:</b> <i>127x35</i>            mod_perl button by Tyler Rorabaugh.</p>	
[Powered by mod_perl] button	<p><b>File name:</b> <i>button-88x31.png</i>  <b>Dimensions:</b> <i>88x31</i>            Powered by mod_perl button by David Wheeler, based on mod_perl_logo_static.</p>	<ul style="list-style-type: none"> <li>● Photoshop original</li> </ul>

To link to this website using one of the above banners or buttons, **download** the image file, then insert the following HTML into your document, replacing *FILENAME* with the correct file name, and *WIDTH* and *HEIGHT* with the correct dimensions :

```
<p>
<a href="http://perl.apache.org/">

</a>
</p>
```

**Note:** *Please* make sure that you download the button/banner locally and use that one, and don't use the complete URL to the graphics hosted on this site; it'll slow your site down and use up our bandwidth.

The main versions of the buttons and logos are provided in the GIF format, as PNG still has a tendency to crash old browsers. If you feel comfortable about using the PNG versions, please go ahead and do so.

Many other logos and buttons have been created for mod\_perl. If you are interested in some of them, you may download an archive containing them all.
